Taimul Haque Pathan

Full Stack Developer · React, Next.js, TypeScript, Node.js

PROFILE

Full stack developer with 3+ years of experience building production web platforms: payment gateways, e-commerce, and AI products. Strongest on the front end (React, Next.js, TypeScript, Redux Toolkit, Tailwind CSS), and comfortable building Node.js and Express APIs when a team needs them. Works well in a team with designers and back-end engineers, learns new tools quickly, and delivers under tight deadlines.

SKILLS

Front end	React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, RTK Query, Zustand, Tailwind CSS, React Hook Form, Zod, next-intl, GSAP, Bootstrap, Recharts, TanStack Table
Back end	Node.js, Express, REST APIs, Prisma, MySQL, Sequelize, MongoDB, Redis, BullMQ, JWT, Swagger, Mongoose
AI and payments	Claude API, OpenAI API, Gemini API, Socket.IO, Stripe, Payment gateways, Google Maps
Tools	Git, GitHub, Figma, Postman, Vercel, Netlify, AWS S3, Cloudinary, Chrome DevTools, Photoshop

WORK EXPERIENCE

Full Stack Developer · Flexitech LLC FZ (UAE)
2025 – Present

- Build the admin and merchant dashboards for **Paytiks**, a multi-gateway payment platform for merchants: transaction and settlement tables, charts and report export.
- Develop the Next.js storefronts and admin panels for **Fleximart** and **GamersTopup**, with multi-language support, form validation and international phone and address handling.
- Contribute backend features in Node.js, Express and Prisma when needed: REST endpoints, authentication, and background jobs on Redis queues.
- Work in a team with back-end engineers and designers, integrating APIs and keeping UI components consistent across products.

Junior Front-End Developer · Monday Digital
Mar 2024 – Feb 2025

- Built responsive, cross-browser interfaces with Next.js in collaboration with designers and back-end developers.
- Led development of core front-end features and integrated APIs to deliver the full user flow.
- Cut duplicated code by introducing reusable components and modern JavaScript patterns.

Full Stack Developer · GBL
Jul 2023 – Feb 2024

- Developed front-end and back-end features with the MERN stack, Next.js and TypeScript.
- Took part in code reviews, giving feedback that raised code quality and kept to team best practices.

MERN Stack Intern · Weero Digital
Apr – Jun 2023

- Contributed to team web applications in React, Node.js and Express, and built the Weero Furniture e-commerce project.

PROJECTS

Paytiks — payment gateway for merchants
Live Link

- Admin and merchant dashboards for a multi-gateway payment platform with transaction and settlement tables, charts and report export.
- Part of a team; I worked mainly on the front end.

Tech: React, TypeScript, Redux Toolkit, Tailwind CSS, Next.js

Fleximart — multi-language e-commerce platform
Live Link

- Next.js storefront and admin panel on a Node.js and Prisma backend with Redis queues and two-factor login.
- Multi-language pages, country and phone validation, and reCAPTCHA-protected forms.

Tech: Next.js, TypeScript, Zustand, next-intl, Node.js, Express, Prisma, Redis, BullMQ

GamersTopup — game top-up store

Live Link

- Game top-up store built on the same platform as Fleximart: Next.js storefront and admin panel.

Tech: Next.js, TypeScript, Zustand, next-intl, Node.js, Prisma, Redis

Voruai — AI chat platform

Live Link

- Customer app with AI chat, wallet, history and manual payments, rendering Markdown, math and code blocks.
- Separate admin panel, and a Node.js API connected to Claude, OpenAI and Gemini.
- Background worker that reads PDF, Word and Excel uploads, with virus scanning and token counting.

Tech: React, Vite, Redux Toolkit, Tailwind CSS, Node.js, Express, Prisma, Redis, AWS S3, Sentry

Ailoris — AI SEO automation platform

Live Link

- Pulls content from REST or MySQL sources, generates SEO content with Claude, Gemini or GPT, and pushes it back on a schedule.
- Live progress updates and a cookie-based admin login with rate limiting and input validation.

Tech: React, TypeScript, Redux Toolkit, Node.js, Express, MySQL, Zod, node-cron, WebSocket

ProBuild Supply Co — marketing site

Live Link

- Animated landing site for an Australian building supply company.

Tech: Next.js, React, GSAP

Bitasouq — crypto gold e-commerce

Oct 2024 – Jan 2025

- Bitcoin checkout with live payment status, role-based admin dashboard, and Google Maps address verification.

Tech: React, TypeScript, RTK Query, Tailwind CSS, Node.js, Express, MySQL, Sequelize

Weero Furniture — e-commerce (full stack)

May – Jun 2023

- Responsive storefront with product, blog and payment management, plus an admin dashboard for products, blogs, users and orders.

Tech: React, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB, Cloudinary, SSL Commerce

MeatMoot — restaurant management API (backend)

Jun – Jul 2023

- Branch and product management, table booking, orders, employee roles and notifications, documented with Swagger.

Tech: TypeScript, Node.js, Express, MySQL, Sequelize, Socket.IO, JWT, Swagger UI

Other client and product work

Gamingty, Metabriz, Medico, PV Shop, GV Shop, Reservenfly, SMS Gateway, AIM Scheme, MRK Equipment Hire and Fahim Telecom: React and Next.js client and admin applications, some with Express and Prisma back ends.

EDUCATION

Degree	Institute	Group	Year	Result
B.Sc. in CSE	Eastern University	Computer Science and Engineering	2021	CGPA 3.92 / 4.00
H.S.C.	Brahmanbaria Govt. College	Science	2011	GPA 3.00 / 5.00
S.S.C.	Annada Govt. High School	Science	2009	GPA 3.50 / 5.00

PERSONAL INFORMATION

Name	Taimul Haque Pathan
Date of birth	10 May 1993
Nationality	Bangladeshi
Languages	Bangla (native), English, Hindi, Urdu
Present address	Badda, Dhaka, Bangladesh
Permanent address	Brahmanbaria, Bangladesh
