Taimul Haque Pathan

Full Stack Developer · React, Next.js, TypeScript, Node.js

taimul.haque@gmail.com | +880 1710 095595 | Dhaka, Bangladesh | GitHub | LinkedIn | Portfolio

SUMMARY

Full stack developer with 3+ years of experience building production web platforms: payment gateways, e-commerce, and AI products. Strongest on the front end (React, Next.js, TypeScript, Redux Toolkit, Tailwind CSS), and comfortable shipping Node.js/Express APIs when a team needs them.

SKILLS

Front end	React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, RTK Query, Zustand, Tailwind CSS, React Hook Form, Zod, next-intl, GSAP
Back end	Node.js, Express, REST APIs, Prisma, MySQL, Sequelize, MongoDB, Redis, BullMQ, JWT, Swagger
AI and payments	Claude API, OpenAI API, Gemini API, Socket.IO, Stripe, Payment gateways
Tools	Git, GitHub, Figma, Postman, Vercel, Netlify, AWS S3, Cloudinary, Chrome DevTools

EXPERIENCE

Full Stack Developer · Flexitech LLC FZ (UAE) — 2025 – Present

- Build admin dashboards and customer-facing Next.js storefronts for the company's products (**Paytiks**, **Fleximart**, **GamersTopup**) with React, TypeScript, Redux Toolkit and Tailwind CSS, working in a team with back-end engineers.
- Contribute backend features in Node.js, Express and Prisma when needed: REST endpoints, authentication, and background jobs on Redis queues.

Junior Front-End Developer · Monday Digital — Mar 2024 – Feb 2025

- Built responsive, cross-browser interfaces with Next.js in collaboration with designers and back-end developers.
- Led development of core front-end features and integrated APIs to deliver the full user flow.
- Cut duplicated code by introducing reusable components and modern JavaScript patterns.

Full Stack Developer · GBL — Jul 2023 – Feb 2024

- Developed front-end and back-end features with the MERN stack, Next.js and TypeScript.
- Took part in code reviews, giving feedback that raised code quality and kept to team best practices.

MERN Stack Intern · Weero Digital — Apr – Jun 2023

- Contributed to team web applications in React, Node.js and Express, and built the Weero Furniture e-commerce project.

SELECTED PROJECTS

Paytiks — payment gateway for merchants — Live Link

- Admin and merchant dashboards for a multi-gateway payment platform: transaction and settlement tables, charts and report export.

React, TypeScript, Redux Toolkit, Tailwind CSS, Next.js

Fleximart — multi-language e-commerce platform — Live Link

- Next.js storefront and admin panel on a Node.js/Prisma backend with Redis queues and two-factor login.

Next.js, TypeScript, Zustand, next-intl, Node.js, Express, Prisma, Redis, BullMQ

GamersTopup — game top-up store — Live Link

- Game top-up store built on the same platform as Fleximart: Next.js storefront and admin panel.

Next.js, TypeScript, Zustand, next-intl, Node.js, Prisma, Redis

Voruai — AI chat platform — Live Link

- Customer app with AI chat, wallet, history and manual payments, rendering Markdown, math and code; separate admin panel; Node.js API connected to Claude, OpenAI and Gemini; background worker that reads PDF, Word and Excel uploads.

React, Vite, Redux Toolkit, Tailwind CSS, Node.js, Express, Prisma, Redis, AWS S3, Sentry

Ailoris — AI SEO automation platform — Live Link

- Pulls content from REST or MySQL sources, generates SEO content with Claude, Gemini or GPT, and pushes it back on a schedule, with live progress and a cookie-based admin login.

React, TypeScript, Redux Toolkit, Node.js, Express, MySQL, Zod, node-cron, WebSocket

ProBuild Supply Co — marketing site — Live Link

- Animated landing site for an Australian building supply company.

Next.js, React, GSAP

EDUCATION

B.Sc. in Computer Science and Engineering · Eastern University — 2017 – 2021 · CGPA 3.92 / 4.00

LANGUAGES

Bangla (native), English, Hindi, Urdu
